PHP, Laravel, HTML5, CSS3, JavaScript, Basic React and Angular, Blade, MySQL, PostgreSQL, Redis, REST API Development, MVC Architecture, Eloquent ORM, Query Optimization, Database Design, API Authentication, RBAC, WordPress, PHPRunner, Git, GitHub Actions, Composer, CI/CD, Server Deployment, Linux

EXPERIENCE

07/2025 - Present
Karachi, Pakistan

Software Engineer
Qsoft

- Develop and maintain scalable web applications using the Laravel framework.
- Implement backend logic for database-driven systems.
- Optimize MySQL queries to improve application performance.
- Build REST APIs for internal and external integrations.
- Manage automated deployment pipelines using GitHub Actions.

06/2024 - 07/2025
Karachi, Pakistan

Junior Software Engineer
Karsaaz Solutions

- Developed PHP-based web applications for multiple client projects.
- Designed backend systems and implemented database-driven features.
- Built responsive user interfaces using HTML, CSS, and JavaScript.
- Collaborated with senior developers to deliver scalable solutions.
- Assisted in debugging and optimizing existing software systems.

01/2024 - 05/2024
Karachi, Pakistan

Software Development Intern
Khatri Services

- Learned database design principles and SQL fundamentals.
- Built backend functionality using PHP.
- Developed responsive interfaces using HTML, CSS, and JavaScript.
- Assisted in developing small internal tools and utilities.

PROJECTS

Laravel/PHP Projects:

PacMarine PIRS API
Developed a Laravel REST API for a maritime inspection and job management system, implementing authentication, role-based access, CRUD operations, relationships, filtering, pagination, and API documentation.

Ship Shore Compatibility (SSC)
Developed a Laravel/Blade-based maritime application for vessel-terminal compatibility assessment, implementing vessel and terminal management, dynamic compatibility calculations, document handling, user roles, reporting, and operational workflows.

PKF Task Management & Attendance System
Developed and maintained Laravel applications for task tracking and employee attendance, implementing task assignment, status tracking, attendance records, leave management, approvals, role-based access, and management reporting.
